THE STORY OF **WAGS**

Duncan Walgreen, professionally known as WAGS, is a young American producer and DJ from the home of house music, Chicago. His roots have played a massive influence in his music, image, and brand.

At the age of 14, in the year 2009, he started exploring his passion for music, working for Platinum Events of Chicago to perform hundreds of private events, and sneaking through backdoors to play nightclubs he wasn't yet old enough to attend.

After playing his first Ultra Music Festival in Miami and Chicago's Wavefront Festival at only 17 years of age, it was only a matter of time before he found his stride in house music.

WAGS spent the last few years of his journey traveling the world and performing at festivals and clubs internationally, in Serbia, Croatia, Spain, Belgium, Poland, South Korea, Singapore, Indonesia, The Dominican Republic, and the Bahamas, all while keeping a home base between Miami and Chicago.

He has since grown his abilities in production and performance, opening for globally renowned acts such as: Eric Prydz, Tiesto, and Tchaimi, to name a few.

Over the past year, the now 28 year old WAGS, has toured the planet with Ultra Music Festival, making stops in nearby cities all over the world.

In an effort to push his creative expansion, WAGS has developed a unique strategy to combine audio and visual storytelling on the dancefloor, with a never before seen show coming to a nightclub or festival near you in the year 2023.
