WHO AM I

Sonia Sol is a world-traveling full time multi-disciplined artist. An open-format DJ, singer, songwriter, and acrobatic dancer - currently based in London and Latin/North America.

Born in Hartford, CT and having lived in Costa Rica for 5 years, Sonia draws heavy inspiration from her Jamaican and Spanish roots, mixing latin and Island sounds with her music. Through her voice, she uses an eclectic blend of Neo-Soul, Reggae, and R&B sounds, and is currently working on her debut album. As a DJ she blends all genres but specializes in House, Reggaeton, Dembow, Hip-Hop, Amapiano, Afrobeats, Baile Funk, Dancehall, UKG, Latin + more. As a singing open-format DJ, it is impossible for her to be placed in one box.

Sonia has been a creative all her life, her musical journey began at home and at school as a young girl studying Violin + Piano for 10+ years. Prior to the pandemic, her tours consisted of her as the lead singer of her band. However, her DJ journey began in Costa Rica where she was self taught during the pandemic lockdown. When things opened up her world changed forever, as she was able to take her music to another level with her high energy performances. For Sonia Traveling is the most important thing, as she prides herself in providing global sounds to her crowds. Traveling as an open format DJ helps her learn new music and connect with new people everyday.
